Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 28 is pending in this application.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on June 20, 2005 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Action Summary

2. Examiner acknowledges the cancellation of claims 1-27, therefore any and all rejections and/or objections are hereby withdrawn.
3. Examiner acknowledges the addition of claim 28 for prosecution.

Response to Arguments

4. Applicant's arguments with respect to claim 28 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which

Art Unit: 1616

said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 28 is rejected under 35 U.S.C. 103(a) as being unpatentable over Otsu et al. (US 5,582,817) in view of Blank et al. (US 5,883,085).

Otsu et al. discloses a complex of zinc with glycyl glycyl glycine or glycyl glycyl glycyl glycyl glycine (col. 3, line 58 through col. 4, lines 57) Column 6, lines 47-57 teach the zinc complex use to reduce sunburn, etc. The prior art does not teach using the complex to reduce, fade out or smooth out wrinkles.

Blank et al. discloses in column 1, lines 20-25 that skin is subjected to extrinsic (environmental) factors as well as intrinsic (chronoaging) that causes it to wrinkle. Exposure to ultraviolet radiation is a common extrinsic factor that causes wrinkles.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the teachings of Blank that UV radiation can cause the skin to wrinkle with the teachings of Otsu that zinc complexes can be used to prevent sunburn. One would use the composition of Otsu as a sunscreen agent, which in turn would reduce the appearance of wrinkles.

Conclusion

6. Claim 28 is rejected.
